

23 February 1982

MEMORANDUM FOR: Deputy Director for Intelligence

FROM : Special Assistant to the Director for
Interdepartmental Affairs

SUBJECT : Cabinet Meeting on 25 February

Bob -

1. We just received notice of a full Cabinet meeting scheduled for 4:30 on Thursday, 25 February. The agenda includes the following: (1) Presidential Private Sector Survey on Cost and Efficiency, (2) Private Sector Initiative Program, and (3) Natural Gas Decontrol.

2. It does not seem that we would have any inputs into certainly the first two agenda items and possibly nothing to say on the third. I recall, however, that the Director has a way of coming up with intelligence questions related to what are seemingly domestic issues. I request, therefore, that you get back to me if there is anything at all of use that we could provide to the Director for his participation in this meeting. For all I know, OGI may be involved in some natural gas study as a result of U.S. domestic policy considerations.
